1-5 ADCBC                      6-10 BFAED

11-15 CBDCA                    16-20 DCACB

21-25 HODBM                   26-30 FGENK

31-35 ACADD                    36-40 DBCBA

作文范文：

#### *Electronic Books*

With the development of technology and science, electronic books have been playing an increasingly important role in our daily life. More and more people are tending to read books or information by computer software or mobile phone software. It is because most of the electronic books are free and convenient to download. When one meets some questions, the first step he does may be to input the key words in the searching engine, then a lot of electronic materials will appear. Above all, most of them are free. It will just take a few minutes to download them and start to enjoy the knowledge, and find the right methods to address those questions.

But some people reject the idea that electronic books should be used in large scale. They consider the electronic books as fast food, not so nutrient to human as traditional paper books do. Worse still, too much time in front of the computer can cause eyestrain or increase radiation risks.

Whether electronic books will totally replace paper books one day still seems to be uncertain. However, no matter what kind of books will vanish, the habit of reading books should not be eliminated.
